## PROVINCIAL INFECTION CONTROL NETWORK OF BRITISH COLUMBIA

A program of the Provincial Health Services Authority

# PICNet April Newsletter

## Debugging Healthcare Together!

Issue: #3

April 2013

### Education Modules on the LearningHub

More [infection control education modules](#) are now available on the PHSA LearningHub (which anyone can access, not just PHSA employees). You can still access PICNet's online modules via the PICNet website if you prefer, but using the LearningHub allows you to track your courses and receive certificates upon completion.

Links to the education modules, as well as [instructions on how to create a LearningHub account](#), can be found on the [PICNet website](#).

The CVC courses may be of interest to non-infection control staff. Please let your CR Nurses in Critical Care and ER know that these are available as a resource!

### Best Practices for Environmental Cleaning

The BC Best Practices in Environmental Cleaning document has now been submitted to the Ministry of Health. Once the document has been approved, it will be released to the health authorities for application in all healthcare settings.

Many thanks to the Environmental Cleaning Best Practices Committee for their hard work on this, and to all the Community of Practice members who provided feedback on the draft document.

### PICNet Calendars

The new PICNet calendar is now available! It was distributed to everyone who attended the conference, and people have already been requesting more. If you'd like a copy, please [contact us](#) and let us know your mailing address. You can also download the calendar pictures

### **PICNet Conference Slides and photos**

Thanks to everyone who made the PICNet conference a great success: our speakers and presenters, our sponsors and exhibitors, and all the delegates who attended! You can view the presentation slides and photos of the conference on the [PICNet website](#).

We're still going through the evaluation forms (our office move has slowed us down!), and these will be used for planning next year's conference.

### **CDI and MRSA Reports**

The CDI and MRSA provincial surveillance reports for the period Q3 of fiscal year 2012-2013 have been approved by the Ministry of Health, and will be posted on the [Surveillance Reports](#) page on the afternoon of April 26th.

### **PICNet Office Move**

PICNet has moved office! We are now located at 1001 West Broadway, which is on the corner of Broadway and Oak.

We have new phone numbers too; you can find these all on our [Contact page](#).

### **Stop! Clean Your Hands day**

May 6th is national *Stop! Clean Your Hands* day. PICNet will be running a contest for this... more information to follow next week!

### **Webber Training**

#### **Upcoming Webber Teleclasses**

Please note: the Webber schedule is subject to change, so be sure to regularly check the PICNet website for upcoming classes. We will always send out the email notification 1-3 days before, so make sure you're [signed up](#) for these.

#### **Surveillance Of Healthcare Associated Infection In Acute Care Settings**

Date: May 9th, 2013
